

COMMUNITY LEARNING

COURSE OUTLINE 2021/2022

Title of Course:	Italian for Beginners
Name of Tutor:	Alexandra Cingi
Who is the course suitable for? (e.g. Beginners/ Intermediate/ Suitable for all) Beginners	
Brief description of the course:	
<p>This course will equip you with basic conversation skills. You will learn to use simple sentences and questions, greetings, exchanging personal information, asking for things in a café or shop, and find your way around town!</p> <p>Although the course is delivered online, it is very practical, and there will be plenty of practice and role-play in pairs or groups.</p> <p>The assessments will also consist of role-play and simulations of simple everyday dialogues.</p>	
Previous experience required (if any)	
None	
Will your learners be expected to provide any equipment/ are there any additional costs?	
<p>All resources which we will be using will be emailed to learners in advance of the session. Learners will probably find it helpful to print them out to be able to write notes on them, therefore printing costs will be a factor.</p> <p>It would also be helpful to have a ring binder (or folder) to keep resources organised and in the right sequence.</p> <p>Learners may choose to buy a book – and if they are interested, suggestions will be given, but this is absolutely NOT necessary.</p>
